

CD No. 15

MOTION

On November 23, 2022, the Board of Public Works (Board) awarded the **task for Task Order Solicitation (TOS) No. 62 to Geosyntec Consultants (Geosyntec) from the Pre-Qualified On-Call Wastewater and Environmental Engineering Services Consultants List to provide pre-design, design, bid and award support, and design services during construction of the Wilmington Neighborhood Greening Project (Project) (Work Order No. S34WWNEI, Contract No. C-129657).** The Board approved a total budget authority for TOS No. 62 of \$1,680,755, including contingency.

On February 16, 2024, the Board adopted a Motion to revise Project funding by adding a new funding source. However, the adopted Motion did not add the work order number associated with the new funding source. Therefore, this Motion is requesting that the Board authorize the addition of Work Order No. S33WWNEI to the Project. There is no change to scope or budget of the TOS.

I THEREFORE MOVE that the Board grant the request to add Work Order No. S33WWNEI to the Project.
